

**Instructor Comment:**

She was a great TA and definitely knew what she was talking about. The Friday sessions with her were really helpful for me if there was something I needed clarification on from lecture.

Explained everything very well in laymen's terms.

Was very helpful during the discussion section while answering questions. One of the best TA'S I have had.

Linda was an excellent TA. She made sure that everyone understood the material before moving on. She was also very thorough.

**Instructor Comment:**

She's a wonderful TA. She explains concepts well and she's funny too, which makes an early Friday class fun!

Linda is great!

Linda was fantastic! She was so patient and understanding during discussion sessions. This is my second time taking Orgo 1 and my first TA with a different professor was no where near as patient and kind as Linda. She didn't make you feel bad for not understanding something and she was welcoming to answering questions. She will make an excellent professor one day!

Dr. Barbeto is very good at explaining difficult organic chemistry concepts in an easy to understand manner. She also maintains interest during discussion sessions by making them fun occasionally.

Linda did an excellent job of facilitating the discussion sessions. She actively tried to clear up misconceptions and inform students of what they need to know.

She is an excellent teacher; always very energetic and willing to answer even the most basic questions.

Linda is a great TA. She explains the material very well and makes it easier for students to understand hard concepts that were covered in class.

Linda is very helpful. She explains concepts multiple times until the class understands the material. She was my biggest resource for passing organic chemistry.

Linda was a wonderful Discussion Leader! She obviously knew the material very well and was willing to help with any questions her students had.

**Instructor Comment:**

Absolutely loved Linda, a great TA and very good at explaining concepts to students and making sure they understand it no matter how long it takes.

Linda is very thorough in her explanation of concepts and always assures that everyone understands the material. LINDA IS THE BEST!

Awesome

She was wonderful!

She was a very good instructor who was willing to answer any questions we had. However, occasionally her answers conflicted slightly with the professor's, so it might be helpful if she and the professor spent more time ensuring their information was consistent.

Very friendly

Linda was an amazing TA for this course. This course could be very challenging but she always had little tricks or ways to help us remember things in the Friday sessions. She was always willing to answer questions from the discussion material or outside material. On Fridays with exams she always went over the material and then left time for us to ask questions for a review which was very helpful given the exam was that evening. Overall, a great TA, always willing to help and make this course as straightforward to understand as possible.

She was great

**Instructor Comment:**

linda was great. she was very clear and a great teacher. I couldn't have asked for a better TA

who?

She is patient and can tell she wants to help

Linda was very knowledgable on the topics that were being taught and always gave tricks and hints on how to remember the most difficult things. In the classroom she always explained things until it made sense and the whole class could understand why an answer was a certain way. She always went above and beyond even when the technology in the classroom was not working to make sure we got through the lecture for the day. She was also available outside of class to answer questions and help students.

Linda was great! She was always enthusiastic and funny. She explained concepts very well and highlighted points that might not have been obvious in the lecture due to it's fast pace. Honestly had zero vices with her. Get her a better classroom though!

Linda was fantastic! She was very competent and was able to explain concepts very well. She always answered questions and made sure we understood.
